- V. Conclusion

What

The Lao CCM positioning is an incorporation of the current CCM structure in to the national health body..

Why

- **Base on Global Fund Guideline and CCM Policy - encourage country to:**
 - Position CCM with in existing health platform
 - Engage DPs/CSO in CCM positioning
 - Ensure Investment in 3 ATM programs
 - develop the CCM positioning pathway
- **Base on the direction of the national health sector**
 - Simply the national structure
 - Align government & DPs coordination with in the existing platform
 - Not create a parallel structure with the existing platform

What for

- The objective of the CCM Positioning is to sustain effective coordination of CCM & GFATM program in health programs and investment.
