Challenges

I. Technical:

1. Number of home visit to screen household contact persons is increasing but remains limited in some provinces/districts.

II. Budget:

1. Central level: Work plan Submitted to CDCD and through passed DPF, waiting for agreement from MoH;
2. District level: Limited budget for Home visit to screen household contact persons;
3. Districts activities implementation did not report to provincial level.

III. Other:

1. Some new District TB Manager had not been trained on the TB tracker data entry and management.

Official Use Only

Solution and way forward

I. Technical:

1. Improve HANSA coordination at provincial and district level for planning and implementation activities.

II. Budget:

1. Central level: Keep coordinate with MoH to get agreement as soon;
2. District level: NTC set up the saving budget to fulfill the gap of these activities in quarter 3 and quarter 4;
3. Province need to coordinate to get the report from districts.

III. Other:

1. Build capacity by trainning and online coaching to the new District TB Manager on real time data entry, data quality.
