

# RAI4E Malaria Grant - Laos Progress Update

BUILD  
THE FUTURE

**4th CCM Plenary Meeting  
17 December 2024**

# Presentation Outline

- 2024 Malaria Situation
- 2025 Activities
- 2024 Financial Updates
  - 2025 Budget
  - Areas need to improve

# Malaria Situation

2024

% change from  
2023

694,996  
tested

-10%

328  
positive

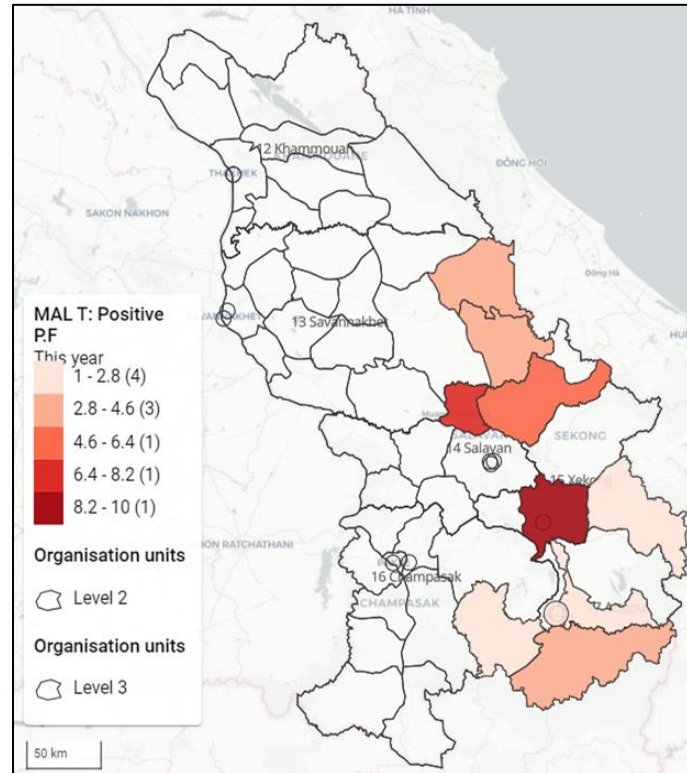

-50%

55  
Pf & mixed

-32%

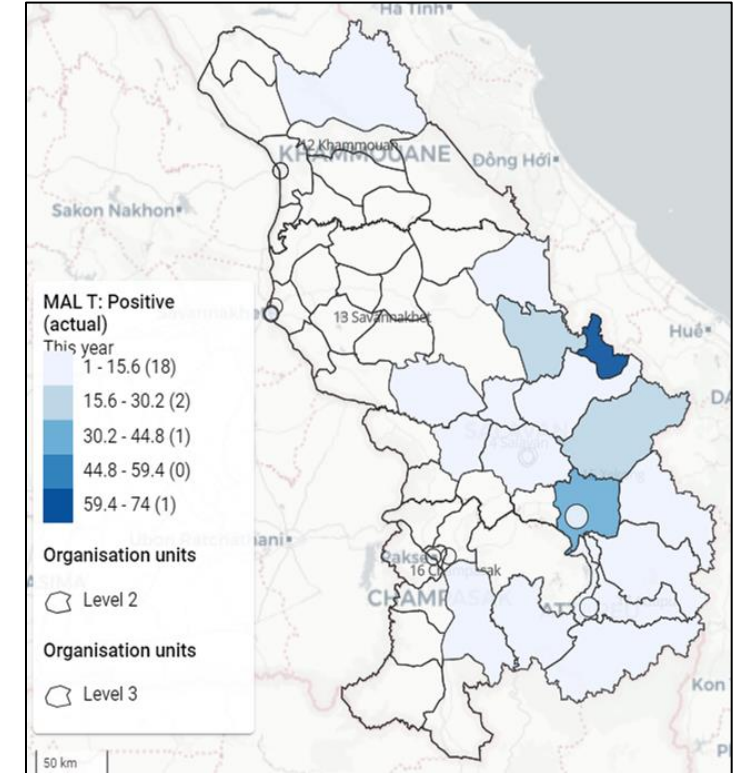

272  
Pv

-53%

**P.f hotspot  
2024**

3 districts  
(Lamarm in Sekong,  
Toumlan & Taoi in Salavan)

**P.v hotspots  
2024**

2 districts  
(Samouy in Salavan,  
Kalum in Sekong)

# Achievements by Sector ( 2024 )

## Parasitological testings

Public	Community	Private	Total
376,872 (54%)	300,101 (43%)	18023 (3%)	694,996

## Malaria Cases

Public	Community	Private	Total
120	185	23	328

# CIFIR ( 2024 )

Case Notification within  
24 hours

98%  
(44/45)

1 case notified after 24 hours due to communication gap across province

Case classification  
within 3 days

93%  
(42/45)

3 cases investigated after 3 days  
  
(same reasons-  
miscommunication  
across district and  
province)

Foci responses  
within 7 days

94%  
(15/16)

1 case responded to  
after 7 days

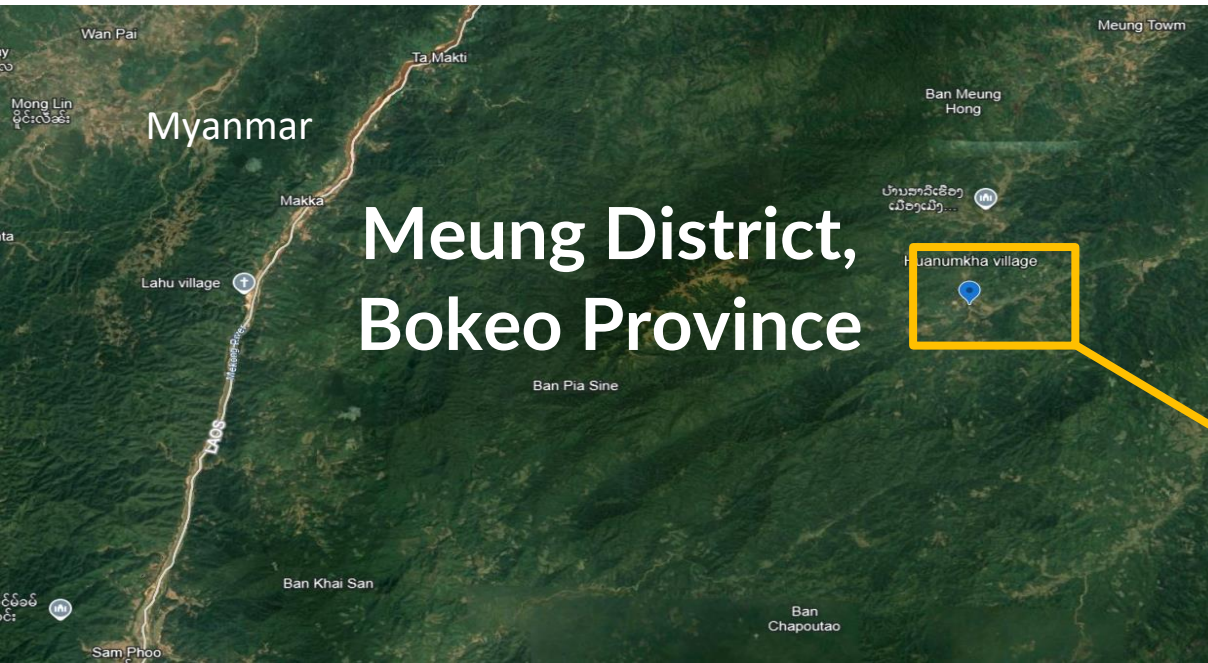

# LLIN distribution - Continuous (2024)

## LLINs distributed to

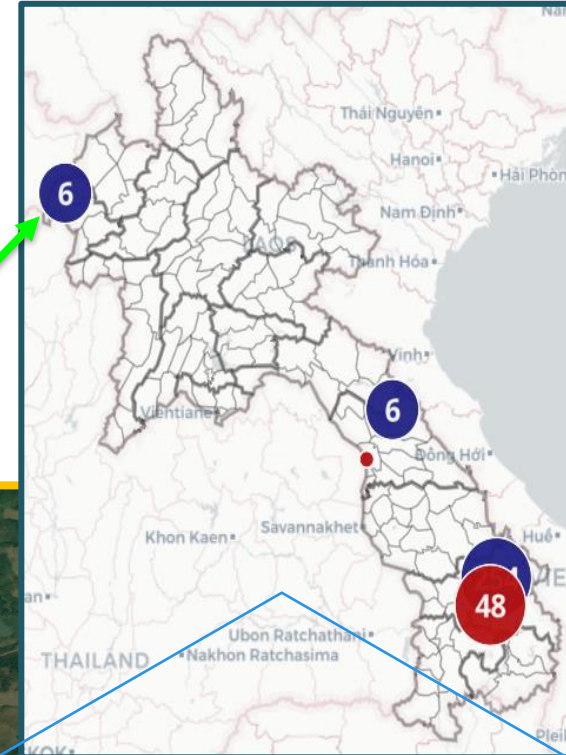

Pregnancy	MMP	Uniformed personnel	Family nets TDA	LLIHN for forest goers	OB	Total
20,474	31,819	22,000	8,694	3,422	6,217	92,626

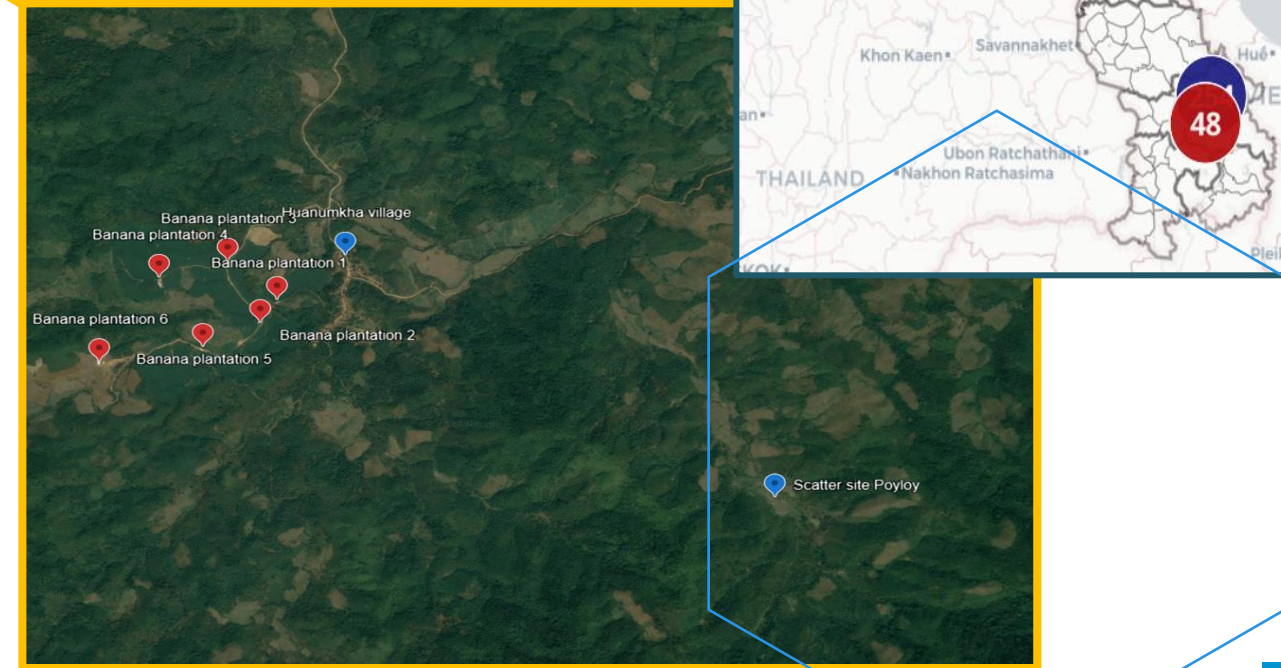

# Bokeo Pv re-establishment - September 2024

- 6 indigenous P.v cases in Sep 2024
- Last indigenous case was reported in 2016
- Remote location 20km from Myanmar border

- Banana plantation next to the village with workers from Lao PDR, Myanmar and China
- Ethnic minority community with forest and field-going behavior
- 1° & 2° Vectors found in the village

# Bokeo Pv re-establishment - September 2024

Extremely challenging field work due to remote access in the rainy season, highly mobile populations, communication with ethnic minority group and coordination with international company owning the banana plantation.

- **Response**

- Province and District led RACD in the field site with, vector control, IEC (Sep)
- RDA x4 with CQ with coverage of
  - RDA1 (Sep) = 79% for day 1 (64% for day 2, 40% for day 3), and
  - RDA2 (Oct) = 36% coverage for day 1 (34% for day 2, 21% for day 3)
  - Repeated RDA2 (Nov)= 85% coverage for day 1 (82% for day 2, 80% for day 3)
- PvSeroTAT (Oct-Nov)

# 2025 Activities

# Key Activities 2025

## Case Management

- Case diagnosis & treatment;
- Pv radical cure; including G6PD testing, assisted Pv referrals, treatment, follow up;
- CIFIR activities in elimination districts following 1-3-7 approach;
- Prevention of re-establishment

## Vector Control

- **LLINs:**  
Mass distribution  
  
Continuous distribution to targeted group : MMP, forest goers, field goers, pregnant women, uniformed personals
- **Entomological monitoring:**  
Hot spot areas as well as elimination areas
- **Bed net survey:**

# Key Activities 2025

## Trainings

Routine ICCM and scale up ICCM (30% of volunteers who have weak performance will be trained)

310 VMWs will be trained for scale up ICCM

DHIS2, surveillance, and supervision protocol

Elimination certification and POR

## Surveillance

iDES:

Integrated drug efficacy surveillance in selected areas

Foci investigation & response:

Elimination targeted areas – 136  
Elimination districts ( # in 2024 stratification)

ACD and outbreak response: 5 southern provinces

# Key Activities 2025

## Monitoring and Supervision

Routine supervision visits from CMPE, Province, District and HCs

Self assessment of elimination certification activities

Desk review by CMPE

RDQA visits by UNOPS

Desk review by UNOPS

# Key Activities 2025

## Reactive Accelerator Strategies

2025 RAS		Pf Strategy	Pv Strategy
BR areas	Threshold for response	1 local Pf case in village / kato	4 local Pv cases within 4 weeks in village / kato
	Response	RDA x2 using ASPY 7-60yrs	RDA x2 using ASPY* 7-60yrs PvSeroTAT
Malaria-free Elimination areas (no cases in past 3yrs)	Threshold for response	3 local Pf cases in foci	3 local Pv cases in foci
	Response	RDA x3 using ASPY 7-60yrs	RDA x4 using CQ 1-60yrs PvSeroTAT

\*ASPY will be used in the Pv strategy as there is a large stock in Lao, once this has been used. Pv RDA will switch to CQ

# Key Activities 2025

## Finance

- Finance and progress update report for 2024 in Jan-Feb;
- External audit for 2024 in Apr-May;
- Provincial expenditure verification for at least 9 provinces;
- Compliance review at least once a year for each sub-recipient;
- Quarterly cash report and forecast in Mar, Jun, Sept and Dec;
- Refresher training on finance guideline for all provinces and central SRs in May and June.

# Health Products Procurement 2025

## 2025 forecasting

- 2025 forecasting is done.
- Procurement request submission is timely done.

## CMPE is in process of

- **2025 contract agreement of shipping company**
- **Procurement process of transportation for LLIN for mass distribution in Feb, 2025**

# Reprogramming 2025

**May**

**Preparation**

## **SRs meetings**

- Identification of re-programmed activities
- Performance framework
- Budget calculation
- Forecasting and quantification for 2026 commodities

**Early June**

**Finalization**

**Reprogrammed budget**

**Reprogrammed performance framework**

**Quantification of 2026 commodities**

**HPMT**

**Late June**

**Submission to GF**

# Reprogramming 2025- Key points

## → First priority on

- ◆ Efficient and non-ambitious malaria strategy for 2026
- ◆ strengthening of microscopy ( assess the functionality of microscopy at hospitals, training needs, and consumable needs)
- ◆ strengthening of CMPE's established PCR lab ( reagent needs)
- ◆ HR gap including VMWs payment

→ Reinvest the above prioritized activities with identified saving, and exchange gain

→ FX exchange rate will be updated and apply in reprogramming budget;

# 2024 Financial Updates

# Budget Absorption Jan-Oct, 2024

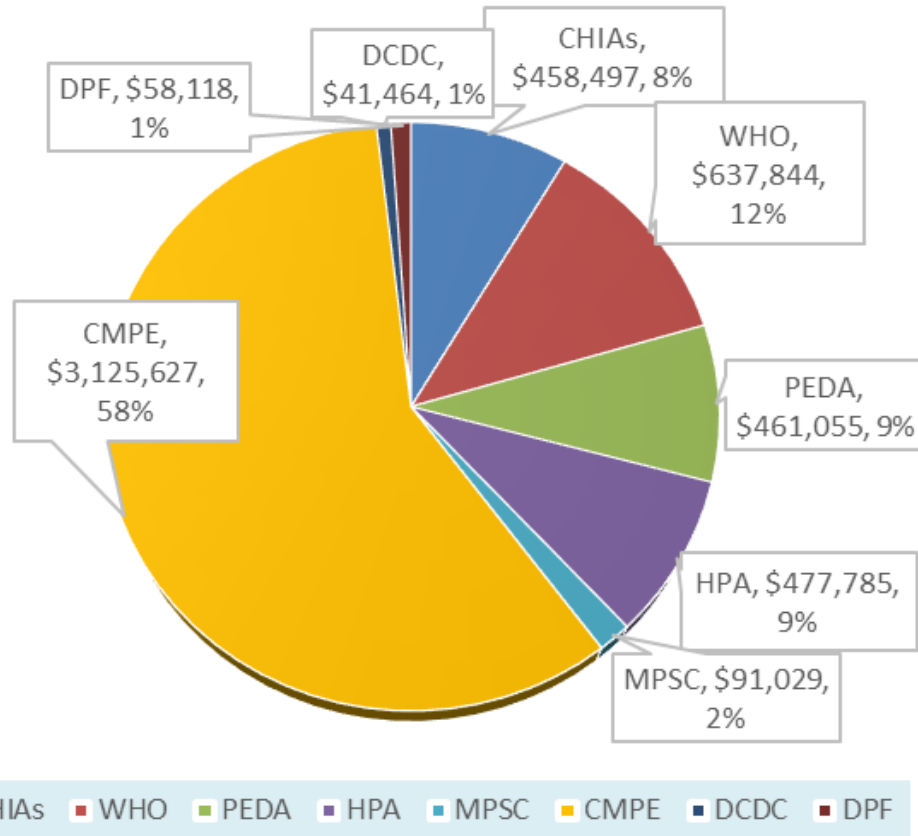

Average Absorption rate: 58% for Jan-Oct

# 2025 Budget

# Budget Plan 2025

By Recipients

By Module

**Total: USD 5,351,420**

# Areas need to improve

**Procurement  
Master List**

**Delayed approval will affect the implementation.**

**Financial**

**Supporting documents of all expenditures must scanned and kept in the safe place.**

**Delayed sending advance clearance document from district causes the risk of missing proper review by provincial accountant before recording accounting transactions.**
